YEAR TWO

DOCTOR WHO

THE ELEVENTH DOCTOR

#5

ABSLOM DAAK

A chainsword-wielding Dalek Killer turned freelance mercenary for hire. He's been hired to bring the Doctor in, dead or alive. Can the Doctor appeal to the better sides of Daak's nature... or have they all been burned off in the Time War?

ALICE OBIEFUNE

Alice Obiefune is a former Library Assistant, who first met the Doctor shortly after her mother died. She has been on a voyage of recovery and self-discovery ever since, and has saved the Doctor from himself and others on multiple occasions!

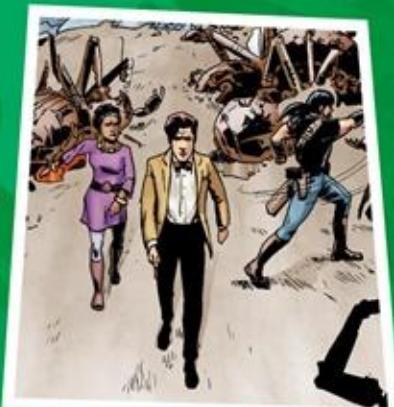

THE SQUIRE

An eccentric armor-clad warrior, the Squire claims to have fought alongside the Doctor. She truly does not know who she is, how she remembers the Doctor, or how she got out of the Time Lock surrounding the Time War. The Doctor believes her.

PREVIOUSLY...

The Overcast blame the Doctor for the death of their people, and hired The Then and The Now, a temporal bounty hunter, to punish him. They also hired Abslom Daak, now forced to stick around because the TARDIS has hidden his wife. After showing his friends why they could not go back into the Time War to prove his innocence (it's still Time-Locked!), the Doctor took them to the planet Veestrax, a world devastated by the Daleks – where Alice experienced a memory of the War, and of the Squire, and of a lone white pillar. And there's a word that keeps cropping up: 'EXTERMINATE'. The Doctor believes he knows who framed him... someone Masterful!

Special thanks to Steven Moffat, Brian Minchin, Mandy Thwaites, Matt Nicholls, James Dudley, Edward Russell, Derek Ritchie, Scott Handcock, Kirsty Mullan, Kate Bush, and Ed Casey for their invaluable assistance.
