## THE ELEVENTH DOCTOR

#8

### ABSLOM DAAK

A chainsword-wielding Dalek Killer turned freelance mercenary for hire. He's been hired to bring the Doctor in, dead or alive. Can the Doctor appeal to the better sides of Daak's nature... or have they all been burned off in the Time War?

### ALICE OBIEFUNE

Alice Obiefune is a former Library Assistant, who first met the Doctor shortly after her mother died. She has been on a voyage of recovery and self-discovery ever since, and has saved the Doctor from himself and others on multiple occasions!

### THE SQUIRE

An eccentric armor-clad warrior, the Squire claims to have fought alongside the Doctor. She truly does not know who she is, how she remembers the Doctor, or how she got out of the Time Lock surrounding the Time War. The Doctor believes her.

### PREVIOUSLY...

The Doctor, River, Alice, Daak, and the Squire headed to one of the most dangerous places in the Universe – the Time Lord prison planet, Shada! The Doctor was there for two reasons – to steal the Master's TARDIS, as it may be able to breach the Time Lock around the Time War, and to confirm a hunch about the Squire – that her past has truly and methodically been wiped clean. Both tasks were accomplished... but why did the Doctor bring River along?

Because now they have to break back OUT!

Special thanks to Steven Moffat, Brian Minchin, Mandy Thwaites, Matt Nicholls, James Dudley, Edward Russell, Derek Ritchie, Scott Handcock, Kirsty Mullan, Kate Bush, and Ed Casey for their invaluable assistance.
