YEAR TWO

DOCTOR WHO

THE TENTH DOCTOR

#5

THE DOCTOR

The last of the Time Lords of Gallifrey, the Tenth Doctor still hides his post-Time War guilt beneath a happy-go-lucky guise.

Never cruel or cowardly, he champions the oppressed across time and space.

GABBY GONZALEZ

Gabriella Gonzalez is a young would-be artist from Sunset Park, Brooklyn, New York, who is traveling the universe at the Tenth Doctor's side. Her youthful spirit and artistic eye are coupled to an adventurous and quick-witted mind!

THE TARDIS

'Time and Relative Dimension in Space'. Bigger on the inside, this unassuming blue box is your ticket to unforgettable adventure! The Doctor likes to think he's in control, but often the TARDIS takes him where and when he needs to be...

PREVIOUSLY...

The Doctor and Gabby arrived in ancient prehistory, only to be attacked – and dropped! – by giant, sentient, flying metal discs. The pair were lucky to be found by the Neanderthal Medicine Man, Munmeth and, having brought the Doctor back to health, the group set out in search of the metal discs, which have been kidnapping groups of humans – Neanderthal and Sapiens alike! The Doctor summoned the discs by faking their biometric profiles to read as period-appropriate, and was scooped up alongside Gabby and Munmeth. Suddenly, flying missiles engaged the discs, and kidnapped Gabby from the kidnappers! The Doctor and Munmeth were rendered unconscious in the fight. Gabby woke to find herself surrounded by a band of bounty hunters!

Special thanks to Steven Moffat, Brian Minchin, Mandy Thwaites, Matt Nicholls, James Dudley, Edward Russell, Derek Ritchie, Scott Handcock, Kirsty Mullan, Kate Bush, and Ed Casey, for their invaluable assistance.
