## THE THIRD DOCTOR

### JO GRANT

Jo has proven her worth as a UNIT civilian employee with a flair for science, and her daring attitude makes her the perfect companion.

With the TARDIS once more functional, Jo's next stop is the entire universe... if an invasion of Earth doesn't stop her first!

### THE DOCTOR

Recently free of his exile from his home planet of Gallifrey, the Doctor still watches over the people of Earth: a Time Lord who works among them. As UNIT's scientific advisor, he is on hand to battle any foe, even if he doesn't quite approve of human military authority...

### THE BRIGADIER

Brigadier Alistair Gordon Lethbridge-Stewart is the founder and UK commander of UNIT. While he and the Doctor may not always see eye to eye, the two have become fast friends, protecting the Earth from alien infiltration together!

## PREVIOUSLY...

After enlisting the help of his former selves to defeat the insane Time Lord Omega, the Third Doctor was rewarded by the Time Lords for his victory with a new dematerialization circuit for the TARDIS, and by returning the knowledge of time and space travel to him. His Earth-bound exile was lifted, and his beloved TARDIS ready to set off on all manner of adventures! But can it be long before his adopted planet needs him again...?

Special thanks to Steven Moffat, Brian Minchin, Mandy Thwaites, Matt Nicholls, James Dudley, Edward Russell, Derek Ritchie, Scott Handcock, Kirsty Mullan, Kate Bush, and Ed Casey for their invaluable assistance.
